DANCE PROGRAM

LET'S DANCE:

Firstly, to say that these are unprecedented times is truly an understatement and our heart goes out to all of our KDG family and loved ones that may have been affected by the Corona virus Pandemic (COVID-19) in one way or another, we hope you're all staying safe and well.

The health and wellbeing of our students, team members, their families and the broader community remain our absolute priority. As such, We have been working around the clock to ensure our valued students still have access to their dance community, so we are excited to announce we will continue to serve you online, through our very own online training program.

Through the use of our online training program, your child will have the chance to stay connected, retain social skills, mental and emotional well-being, exercise, keep their bodies conditioned and minds stimulated during this difficult time. In addition to this, the value our students are receiving is priceless.

Now more than ever, we need to ensure our children have something to look forward to each day, to help get them through the monotony of isolation. We look forward to seeing you at our online classes soon.

Karlie Johnson

HOW DOES IT WORK AND WHAT ARE THE BENEFITS?

Each month your child will receive:

- Live streamed classes in each genre to be recorded and uploaded to our virtual classrooms, so each child can log on with their own access code to view class content, re-take dance classes and more.
- The benefit of chatting with their teachers and peers, a chance for teachers to check in and provide corrections and for students to gain a feeling of togetherness when they need it the most.
- A combination of both live-streamed and pre-recorded master classes with Australia's most well-known choreographers, professional ballerinas, guest teachers from the Australian Ballet and more.
- Heal Yourself and Move Program devised by ex Australian ballet dancer Zak Jones.
- Progressive Ballet Technique program devised by Marie Walton-Mahon
- Online classes from InSync Pilates and Physio.
- Syllabus work by leading associations such as Cecchetti Ballet Australia, Southern Federation of Dance and International Dance Technique.
- Specialised tutorials in increasing turnout, flexibility, body conditioning, pre-pointe and pointe work.
- Specialised Pilates classes for dancers hosted by Miss Graci and special guest teachers.
- Students will have life-long access to the program after classes resume back at the studio.
- A Dancer's Mindset Program, with focus on developing a healthy mental and emotional state of well-being.
- A huge variety of online activities and resources; worksheets, colouring in, games, challenges, theoretical components, in-house competitions and more.

- Something for the parents - all customers will have access to the virtual Adult classroom where we will be offering Barre classes, Jazzercise and other adult fitness classes. This is extra exciting, as we don't always have the studio time or space to run these normally.

HOW DO WE GAIN ACCESS?

- Students will access all their live streaming classes, pre-recorded content, training, master classes and activities etc via virtual classrooms.
- Students will be provided with unique access codes to log into their virtual classrooms.
- The same codes will be used week on week.
- An instructional video will be provided to show students how to download zoom and our housing platform.
